FLAGSHIP SYSTEMS

Software that works where you are

Offline-first platforms built for Ugandan realities.

- Offline-First School Management System — Desktop + web platform for schools — runs even without the internet.
- Attendance Hub — Event & church attendance kiosk — desktop, web, and native Android.
- SACCO Portfolio Quality & Microfinance System — Double-entry ledger, loans, and portfolio analytics for SACCOs.
- Destiny College DBMS — Normalised academic database with grading and transcript analytics.
